# LINDNER

*Das Original*

Husband and wife partners Elena Lindner and Frank Wenger, owners and managing directors in 4th generation.

LINDNER Headquarter in Schömburg in the 50s.

Headquarter in Schömburg, Zollernalbkreis.

LINDNER at your service since 1947 - over 75 years of experience for the best possible storing solutions for collections worldwide.

## THE TASK...

As a collector of stamps, coins, medals, banknotes and other objects you have taken on the rewarding task of safeguarding objects that may have monetary, personal or cultural significance. Through this you are documenting the present and the past in a very special format.

At LINDNER we have made it our primary mission to support you in your passion with our collecting systems. Whether your passion is to collect objects to preserve or enhance the value, or to research and develop a collecting theme, the presentation and storage of your collection is a fundamental part of your passion. The LINDNER product portfolio offers a wide range of possibilities and essential accessories to aid you in your hobby.

## THE ESTABLISHMENT...

In 1947 August Lindner began to develop products for collectors and over the following years continued to expand these. What started as a small company with only a few products and co-workers has developed into a mid-sized global business with a considerable product range and variety; committed to unholding tradition and also innovating new ideas. The first coin album available in Germany is still a treasured LINDNER product to this very day. The hingeless (falzlos) system, the T-products and last but not least, the LINDNER coin boxes, are all inventions “Made by LINDNER” which have found their place in the world of collecting. The continual enhancing of the portfolio by working together with collectors and dealers a-like, has made LINDNER a household name in collector’s circles.

In 2006, just about 60 years after the company’s founding, the families 4th generation took over the management of the LINDNER business and is now leading this internationally established enterprise in its unchanged title. Our primary commitment is still offering high-quality, safe, beautiful and practical conservation of collector’s objects. Since its founding, the company’s headquarter is in Schömburg near Balingen in the Zollernalbkreis. Through a network of domestic and foreign dealers and distributors, we are represented nationally and internationally, enabling us to offer our products worldwide.

## THE CLAIM...

Our principal goal to support you in your collector’s passion is assured through our high-quality standards. We see quality control in production and deliveries as a responsibility and self-evident. A large range of our products are still either self-produced or manufactured in German and European companies, which guarantees us a fast and efficient access to product and quality control. If nothing less, the quality standard of LINDNER is convincing worldwide in function, workmanship and design.

## THE SERVICE...

Our high-quality standards of control extend themselves into our after sales service and our experienced advisory service. This applies equally for our advisory teams in our headquarter in Schömburg, as well as for our representatives worldwide. Through a long established collaboration with our sales partners we are now represented in 100 countries of the world.

# LINDNER COIN BOXES

The LINDNER coin boxes are easy to handle and the large selection provides flexibility for every coin collector. Coin collectors who already use the coin box system know that years of experience helped develop and improve this exceptional product line to satisfy the wishes of every coin collector and to provide individual storage solutions. Years ago, LINDNER developed the perfect coin box system with the help of coin specialists and coin collectors. **To ensure that you have purchased an original, high-quality LINDNER coin box, look for the "LINDNER" logo on the top of the tray pull handle.**

LINDNER coin boxes offer many possibilities and varieties for storage. **The unique stacking**

**system allows you to select from 3 different heights of the boxes and from over 150 different configurations to hold small, large, thick and thin coins;** as well as capsules and coin holders. Choose from different carrying cases to protect your coin or collection boxes.

The LINDNER coin box system can be expanded without limits. The boxes are stackable, sturdy, fit into most safes and match almost any decor. LINDNER offers a variety of practical accessories which – in combination with the coin boxes – provide a successful and safe storage solution for all your coins, medals and banknotes. All materials used in the manufacturing process of the LINDNER coin boxes have been subjected to

rigorous tests. The synthetic frame is scratch-resistant to ensure long-term usage and to maintain attractive appearance. LINDNER coin boxes are practical, versatile, safe and attractive!

## STYLES

### Standard

Grey drawer with light red velour insert and crystal clear frame.

### Smoked glass

"Smoked glass" drawer with winered velour insert and crystal clear frame.

### Marine

Grey drawer with dark blue velour inserts and crystal clear frame.

### Carbo

Grey drawer with black velour inserts and crystal clear frame.

The red, winered, dark blue and black velour inserts create an ideal contrast to silver and gold coins, as well as medals. The crystal clear synthetic frame offers a clear view on your treasures. The high-quality velour inserts of our coin boxes are also available separately. This offers the possibility of "re-equipping" coin boxes or integrating the velour inserts into your own individual system. Format of the coin box inserts: 225 x 285 mm.

# COIN BOX CAPSULES FOR COINS Ø 16 - 51 mm

More safety and flexibility with coin box capsules: Additional protection for all your coins against environmental influences, fingerprints, dirt, skin oil and moisture! Two capsule sizes offer maximum flexibility by holding coins from Ø 16 up to 51 mm. Every capsule contains a red insert consisting of several concentric rings. The number

of rings of the inserts can be adjusted to accommodate the coin. Multiple coin sizes can be kept in one coin box. The capsules come in red or winered, matching the velour insert of our "Standard" or "Smoked glass" coin boxes.

**Material rings:** PP polypropylene

# COIN BOX INSERTS FOR COINS OR CAPSULES UP TO Ø 62 mm

Small coins, large coins, encapsulated coins and coins without coin capsules – you can collect almost limitless with our coin box inserts. Just two coin box variations but countless possibilities because: Inlets in two different sizes offer a maximum of flexibility and accuracy up to a diameter of 62 mm. The usage is very simple. Just lay the coin or the coin capsule on top of the inserts. Now you have to

break out the excess rings. So if you like to collect very different sizes of coins or coin capsules in one coin box, get with this the perfect system. LINDNER coin box inserts are available in red and winered, suitable for the coin boxes "Standard" and "Smoked glass".

# HARTBERGER® COIN HOLDERS AND ACCESSORIES

Coin holders from HARTBERGER® offer a different storage solution for the coin collector. Popular for many years, they are very easy to use: Place coin on the one side of the frame and fold together. HARTBERGER® Coin holders are made of cardboard and softener-free foil. They are available either self-adhesive or non-adhesive (needs to be stapled).

# COIN CAPSULES CARRÉE

## FOR COINS Ø 14 - 41 mm

Format:  
50 x 50 mm

The uniform external format (50 x 50 mm) of the coin capsule offers the option of collecting coins of different diameters in one collecting system. The softener and acid free block-foam inserts are available in diameters from a size of 14 mm to 41 mm – for all current coins.

The coin capsules are extremely scratch resistant and provide the perfect protection and a “crystal clear” view of your coins. In addition to the robust material, the protective rim on the bottom and the lid of the capsule prevent scratching of the capsules.

# MULTI COLLECT - SYSTEM

## VERSATILE COLLECTING WITH OUR MULTI-TALENTED SYSTEM

Versatile collecting with our multi-purpose album system. This album rightly deserves its name – every collector can find a large assortment of pages with a wide variety of pocket sizes which provides different types of collections.

Whether you collect stamps, sheetlets, FDCs, ETBs, year books, booklets, postcards, banknotes, coins or phone cards: Our Multi collect-system has a place for everything! The typical 4-ring mechanism of the padded Multi collect-ring binder guarantees easy handling and impresses with a large capacity. A plastic window on the spine provides space for identification labels/description of contents.

We offer ring binders which differ in size, colour and storage capacity.

Fitting ring binders are found on page 42-43.

## DIGITAL SOLAR-CALIPER

High-quality, digital measuring device made of a carbon fibre compound, with versatile functions and an LCD-display. Can be set to zero position at any time, allowing for differential measuring. Includes feature for measuring depth and internal diameters. Can switch from metric to imperial system. Batteries included.

The carbon fibre compound material guarantees precise and gentle measuring of coins and other objects.

Measuring is possible at any given time, thanks to two energy sources. When the brightness exceeds 200 LUX, the solar cell provides the display with power. When brightness is less than 200 LUX, a 3 Volt Battery supplies the energy.

### Technical data:

Measuring scope: 0-150 mm, 6"  
Precision: +/- 0,2 mm, +/-0,01"  
Measuring units: 0,1 mm, 0,01"

## ULTRASONIC CLEANER

For a gentle and hygienic cleaning of coins, watches, jewellery, glasses, CDs, razor heads, silverware, dentures and much more through ultrasound waves. This Ultrasonic cleaner produces small pressure shafts. These pressure waves create millions of tiny air bubbles. The surface is thoroughly cleaned by rupture of the bubbles. By this process, even the dirt in the corners and recesses is removed and absorbed by the liquid.

- Gently cleaning with water or cleaning liquid
- Stainless steel container
- Fine mesh inlay basket of plastic with watch and CD/DVD holder
- Large viewing window in lid
- Capacity: 750 ml
- LCD-Display
- 5 adjustable time intervals
- Power cable with Euro plug

For optimal results we highly suggest the use of our coin cleaner (8015).

## COIN TONG

It is very important to handle your coins carefully to maintain their quality and protect them from dirt. Never touch coins with your fingers; moisture and skin oils can lead to interaction with the metals. To avoid damage of any kind, it is of utmost importance to handle coins only with a quality coin tong. The tips are covered with a protective coating, which guarantees safe handling of your entire coin collection. They are an essential tool.

### SOLID WOOD CASE CARUS

Solid wood case in a perfect, dark finish. The surface is smooth and shows the natural grain of the wood. The natural grain of the wood on the outside of the lid as well as the inner side enhances each case giving it an individual character. The appearance of each coin case is enhanced by the stable LINDNER-latch. The coin inserts are covered in high-quality black velour.

## LINDNER T-SYSTEM

Each page of the LINDNER T-system is made of a PERMAPHIL®-cardboard page and a hard-PVC-foil sheet which is fixed on the left side of the page. The foil sheets are softer and acid free. You can choose between many variations of insertion strips in different heights and widths. The stamps are inserted into the foil strips and are thereby protected on both sides. Due to the quality of the foil, you always have a “crystal clear” view of your stamps. The gentle clamp effect of the foil seam, which is produced by a special foil welding process, ensures that the stamps stay at their intended place. The foil sheet is glued on the cardboard sheet by a special adhesive process at the left side. This allows a simple leafing. Because of this, you can easily have a look on the front and the rear of the stamps without taking them out of the foil sheet. This is a typical character of the LINDNER T-system. The high-quality of material and production ensure an easy remove of the stamps, without the fear of damage. All pages of the LINDNER T-system have 18-ring hole punch, which gives them a sturdy hold in all LINDNER ring binders with 18-ring mechanism. The LINDNER ring binders can be found on page 72-74.

## LINDNER T-ILLUSTRATED COUNTRY ALBUMS

Illustrated stamp pages were developed for those collectors who like to collect certain or several countries, with the entire stamp issue years. The stamps are depicted on the card pages and provide a fixed place for the stamps. This helps to portray each issue. Our employees in the LINDNER philatelic department collect and process issued stamps of over 150 countries for you. For those who collect internationally, there is no way around using our illustrated pages. They ensure that our collector owns the complete collection. Stamps will illustrate events of a country, they inform you about parts of the world, organisations and communities, allow insights into cultures and tell of highlights in history, politics and science. Stamps allow you to experience international events up close. The illustrated pages provide anticipation for stamps which have not yet been issued, and tell you which stamps still need to be found. Place the stamp in the provided place in the foil sheets. You can lay the stamp directly over the stamp illustration on the page. The stamp now lies entirely protected by the sheet foil. Each year, supplements are issued for the previous year, ensuring that your collection is always up to date.

## LINDNER DOUBLE T-ILLUSTRATED PAGES

The LINDNER double T-illustrated stamp pages were developed for collectors, who wish to collect the new stamps as well as used stamps and do not want to purchase two sets of illustrated pages. The stamps are printed on both back and front side of these card pages. The foil sheets are glued on both front and back of the page, so that you can keep the new stamps on the front side and the used stamps on the reverse.

The beginnings of the album productions in Schömberg around 1950.

## LINDNER T-BLANK AND LINDNER DT-BLANK-SYSTEM FOR THE TOPICAL OR THE CREATIVE INDIVIDUAL COLLECTOR

This system offers countless possibilities for the individualists and creative collectors who like to design their own stamp collections. Unlike the illustrated pages, these pages are not printed but remain blank. The LINDNER T-Blank-system has over 80 different page variations with different foil sheet strips for an individual set up of stamp collecting.

An advantage in the LINDNER T-Blank-system is that the stamps can always be removed or the page rearranged. The page will not be damaged and can be used to design a new collection. For collectors that like to add text or pictures, we offer the LINDNER write-up pages with many possibilities.

The write-up pages can be designed by hand or on the computer and are then placed between the card page and foil sheet, turning each page into an individual eye-catcher. The size of the write-up pages corresponds to the different kinds of T-Blank-pages.

## LINDNER PAPER QUALITY

All LINDNER systems use the exclusive PERMAPHIL®-cardboard, which protects a stamp collection from the aging process and harmful environmental influences for decades. Impressive facts about our PERMAPHIL®-cardboard:

- a pH value of more than 7.5 which makes it acid free,
- age resistant due to a low calcium carbonate content,
- free of optical brighteners,
- free of acid-forming components,
- bleached without chlorine,
- firm album quality,
- paper weight: 200 g / sqm.

## INSERTS FOR WRITE-UPS

The "write-up" sheet is placed between the hard-PVC-foil sleeve and the album page. They are available in black or white. The black sheets are designed for collectors who prefer to have a black background behind the stamps. The contrast enhances perforations, colour, and the beauty of the featured stamps. The white sheets can be used to add any text, pictures or illustrations to the sheet and can be exchanged at any time.

### Protection on both sides of the stamp. Clear view of the stamp.

Stamps can be viewed by turning the page (they don't have to be removed from the protective sheet).

Secure fixture of the stamps by gentle clamping effect of the foil seams.

LINDNER T-freestyle can be integrated into each available collection-system. This offers the possibility to complete or expand an existing collection, regardless of which type of collection system is being used.

Choose the page format and position.

Layout the pages as you require, then affix the LINDNER T-freestyle foil sheet.

For an even more flexible collection-system, use the LINDNER inserts for write ups. Layout the labeling sheets as you require and then place them between the foil sheet and the album page. This offers the advantage of being able to remove the labeling sheet and re-use the album page.

Inserts for write-ups see page 64 and Blank-pages see page 65.

# MULTI COLLECT - SYSTEM

## VERSATILE COLLECTING WITH OUR MULTI-TALENTED SYSTEM

Versatile collecting with our multi-purpose album system. This album rightly deserves its name – every collector can find a large assortment of pages with a wide variety of pocket sizes which provides different types of collections.

Whether you collect stamps, sheetlets, FDCs, ETBs, year books, booklets, postcards, banknotes, coins or phone cards: Our Multi collect-system has a place for everything! The typical 4-ring mechanism of the padded Multi collect-ring binder guarantees easy handling and impresses with a large capacity. A plastic window on the spine provides space for identification labels/description of contents.

We offer ring binders which differ in size, colour and storage capacity.

Fitting ring binders are found on page 42-43.

# UNIPLATE

Versatility and an attractive price are the key arguments in favour of UNIPLATE. Originally developed for the US market many years ago and successfully launched there, this system now also delights collectors in Europe. Collectors benefit from a wide range of high-quality, well-finished plastic sheets with a variety of pocket and strip formats, offering numerous possible uses. Whether stamps, miniature sheets, FDCs, ETBs, stamp booklets, postcards or banknotes – almost everything finds a safe and secure place in the UNIPLATE system.

## 1 UNIPLATE RING BINDER "STANDARD"

# NIMBUS DISPLAY FRAMES

## GIVE YOUR FAVOURITE COLLECTIBLES THAT "SPECIAL LOOK"

The display frames of the NIMBUS Series offer a completely new way of displaying your collectibles. The special feature of these frames are the two crystal clear, flexible silicone membranes which surround your items gently and create the impression that they are suspended inside the frame. At the same time you have an unlimited view of the back and front side of your favorite pieces. There is almost no limit of what kind of items you can

display in these frames. The material is very flexible and adapts completely to the surface of the objects and keeps them in place. From coins (in capsules) and stamps to writing utensils, watches, knives, decorations, photos, jewellery and other collectibles - with NIMBUS you can display your favourite objects in a special 3D frame!

**Special production from 10.000 pieces.**  
**Embossing possible from 100 pieces.**

### ...HERE IS HOW IT WORKS:

Open the frame completely. Place the collectible on one of the two silicone membranes and close the frame. The object will be held in place by the surrounding silicone membranes, keeping it in its position. A magnetic closure holds the frame together!

# LINDNER ILLUSTRATED COUNTRY PAGES AND SUPPLEMENTS

## ILLUSTRATED PAGES

Illustrated pages provide a full and complete overview of each country's issued stamps. LINDNER uses an acid-free, age resistant, and archival paper called "PERMAPHIL®"; the size is 272 x 296 mm. The firm, wood-free paper has an 18-hole perforation to fit all the original LINDNER 18-ring binders shown on pages 72-74.

Some of the illustrated albums are available in colour. These are marked in the following tables.

## SUPPLEMENTS

Listed from page 125 are the yearly supplements for all LINDNER-T illustrated country albums. They are published in the early summer of each year and contain the supplement pages for all stamps issued in the previous calendar year. Stamp collections can be kept up-to-date and the continuous quality of the supplements guarantee a perfect match to the pages previously purchased.

## NUMBER OF PAGES

In the following index, the number of pages is the actual amount of illustrated album pages in one set (title pages excluded). However, all sets contain title pages and are included in the price.

## LINDNER SINGLE PAGE INDEX

The page index lists the year as well as the MICHEL numbers and/or the catalog numbers for each illustrated page. The LINDNER-T page indexes starting in January 2000 can be found on the internet under [www.lindner-original.de/en](http://www.lindner-original.de/en) in the section "Flyers & Brochures". For each area of interest you can obtain the retrospective years on request.

## IMPORTANT:

The following tables contain the supplement pages 2024. The supplements for 2025 will be issued in spring 2026.

## SINGLE PAGES

Every LINDNER-T illustrated album page can be purchased individually. Please provide exact order information including album number, page number and year since single pages can not be exchanged or returned. Example: 1 x 120b-49 pages 15, 16, 17 year 1959. We recommend before purchasing a large amount of single pages, check if it is less expensive to obtain a complete set instead of individual years. Please contact us if you need assistance.
